PROFILE

3rd Year Engineering Student at ESPRIT University, Ariana – Cité El Ghazela, specializing in web technologies. Passionate about modern and secure web applications, with experience in full-stack development using Laravel, Django, Spring Boot, React, Angular, and Vue.js. Skilled in working with AI models, including their development, integration, and deployment in web applications. Currently seeking a PFE internship to contribute to innovative projects and further strengthen my technical and AI expertise.

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, Java, C, C++, PHP

Frameworks/Libraries: Laravel, Django, Spring Boot, Express, Symfony, Angular, React, Vue.js, Tailwind, Bootstrap

Databases: MySQL, MongoDB, PostgreSQL

DevOps & Tools: Git, GitHub, GitLens, Docker, Jenkins, GitHub Actions

Soft Skills: Problem-solving, Teamwork, Adaptability, Time Management, Creativity

Languages: Arabic (Native), French (B2), English (B2)

EXPERIENCE

Engineering Intern – SLS IT, Tunisia 2025 (2 months)

Developed a modern, secure, and performant web application for managing taxis, drivers, and reservations using Laravel, Vue.js, Vite, and PostgreSQL.

Immersion Intern – DIVA Software, Tunisia 2024 (90 days)

Gained hands-on experience in modern web development with JavaScript, TypeScript, React, and Next.js. Managed branches, pull requests, and component refactoring using Git, GitHub, and GitLens.

Technician Intern – 3S (Standard Sharing Software), Tunisia July 2023

Redesigned the company's scheduling platform using Symfony framework.

Introduction Intern – Tunisie Télécom, Tunisia July 2022

Assisted with telephone line connections and provided technical support.

PROJECTS

Book Share (2025): Developed an internal messaging app with Laravel and Tailwind CSS. Integrated meetings, comments, and an AI model for spam detection and user Trust Score.

Journal IA (2025): Built a Django app combining personal journaling and AI for goal tracking and well-being. Implemented full CRUD for goals with AI-generated motivational messages and completion estimates.

The Menufy (2025): Developed a secure web app with React.js, Node.js, Express.js, and MongoDB. Implemented JWT/HTTPS security, CI/CD with GitHub Actions/Jenkins, and Docker containerization.

Coffee Management (2025): Microservices project using Spring Boot, Node.js, and Angular. Used Eureka for service discovery, Gateway, OpenFeign, MySQL, MongoDB, and Docker deployment.

Futura (2024): Multi-platform: Desktop (Java), Web (Symfony), Mobile (Codename One).

Creart'Com (2023): Web app with HTML, CSS, PHP, and JavaScript.

Anubis (2022): 2D game with SDL in C++.
